

Boost sales and improve project costing

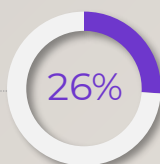

Respond quickly to the market, pursue new business lines, and automate processes

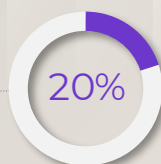

Small and medium-sized businesses (SMBs) need business solutions that allows them to digitise rapidly. The solution should drive process optimisation, accelerate financial closes, and improve cycle times.

65% of surveyed CFOs list standardising and automating processes and building agility and quality as a significant priority¹

26% of surveyed CFOs are dissatisfied with cross-functional collaboration to bridge the gap between operational and financial planning²

20% of surveyed SMBs will close by 2025 because they cannot pivot fast enough to digitise their operations to meet customer demands²

Where business can make improvements

Common use cases businesses like yours look to solve with a new system include:

Enhancing purchasing, manufacturing, and inventory visibility to adapt with changing business models

Improving forecasting with real-time metrics

Strengthening compliance and security across subsidiaries
